SUMMARY:

Enthusiastic front-end developer with a strong engineering foundation and R&D experience. Graduated from Scrimba's Frontend Developer Career Path, specializing in HTML, CSS, JavaScript, and React. Actively transitioning to tech, showcasing proficiency in project management and sustainable practices. Eager to apply technical skills and creativity in collaborative environments, merging research-driven insights with a passion for crafting user-centric applications.

SKILLS & TOOLS:

- Front-End Development: HTML, CSS, Sass, Bootstrap, JavaScript, React
- Design: Responsive Design, Interactive Design, Basic UI/UX understanding, Graphic Design
- Project Management: Agile Methodologies, Scrum Principles, Product Development
- Tools: Microsoft Office, Adobe Creative Cloud (Photoshop, Illustrator, Figma), Jira

EXPERIENCE:

Career Transition: Self-taught Front-end Developer

2023 – Present

- Actively participating in Scrimba's Frontend Developer Career Path, involving over 80 hours of top-notch tutorials, coding challenges, and real-world projects.
- Successfully completed dozens of real-world projects showcasing proficiency in HTML, CSS, JavaScript, and React.
- Overcame hundreds of coding challenges, demonstrating strong problem-solving skills.

R&D Engineer – Arçelik Global - Istanbul, Turkey

2021 – July 2023

- Leveraged agile project management methodologies to contribute to sustainable product development.
- Researched and adopted technologies, analyzed market trends, and developed technology roadmaps in alignment with innovation and sustainability goals.
- Responsibilities included presentations to stakeholders, academic writing, patent application preparation, technical reporting.
- Established collaborative relationships with national and international partners, driving shared commitment and results.

Career Transition Focus: Cultivated vital skills for a tech transition including project management, trend analysis, strategic collaborations, sustainable and innovative practices for dynamic projects.

PROJECTS:

Portfolio Website

Stack: HTML, CSS, and JavaScript, React | [GitHub](#)

Conceptualized, designed, and developed a dynamic personal portfolio website that showcases and captures my front-end development journey.

- Implementation of dynamic content updates, allowing seamless additions or modifications to projects, skills, and experiences by leveraging JSON data and JavaScript mapping techniques.
- Demonstrated proficiency in JSON integration for data management, enhancing the website's adaptability.

Cinemat - Movie Watchlist App

Stack: HTML5, CSS3, JavaScript (ES6+), OMDb API | [GitHub](#)

Cinemat is a web application for movie enthusiasts to explore, track, and manage their favorite movies.

- Developed a responsive web application that dynamically fetches movie data from the OMDb API, enabling users to seamlessly explore, manage, and track their favorite movies in addition to a featured movies section.
- Integrated a robust movie search functionality, resulting in an enhanced user experience and increased satisfaction.
- Received acclaim for the user-friendly and modern design, contributing to positive user reviews.

Quik - Instant Delivery E-commerce App

Stack: HTML5, CSS3, JavaScript (ES6+), UUID (v4) | [GitHub](#)

Quik is an e-commerce web application designed to provide users with a quick and personalized instant delivery experience.

- Developed a dynamic and responsive that utilizes a local JSON file and UUIDs to offer users a swift and personalized instant delivery experience.
- Contributed to a more seamless checkout process by implementing dynamic product addition and saving membership information on different pages.
- Implemented a feature allowing users to add specific items to their basket using UUIDs, resulting in enhanced product discoverability.

EDUCATION:

• SCRIMBA - The Frontend Developer Career Path (2023 – 2024)

Comprehensive and up-to-date front-end development program covering essential topics for a successful career.

Skills Acquired: HTML, CSS, JavaScript, React, APIs, Web architecture, Responsive design, UI Design, Git.

• ANADOLU UNIVERSITY – Bachelor's Degree in Management Information Systems (Distance School) (2023 – 2026)

• ISTANBUL TECHNICAL UNIVERSITY - Bachelor of Science in Engineering (2015 – 2020)

COURSES & CERTIFICATIONS:

- The Frontend Developer Career Path from Scrimba - 2024
- How to Research & Write Using Generative AI Tools from LinkedIn - 2023
- Scrum Team Member from Scrum Inc. - 2022
